PLEASANT AND PRECISE  
SCULPTING OF COMPOSITE

## Diamond-like feel & precision

Restorative instruments with LM Dark Diamond™ non-stick coating are ideal for placing and contouring composite resins. The diamond-like coating reduces stickiness and allows pleasant and precise restorative instrumentation.

- Exclusive diamond-like coating for non-stick placement and sculpting of composite resin
- Not sensitive to scratches due to hard surface
- Smooth surface for easy cleaning
- Dark-colored coating maximizes contrast against fillings and minimizes reflections
- Ergonomic LM-ErgoSense® technology delivers excellent precision and feel
